Which of the Tally Detail fields in the Tally Detail Screen Option you've selected (above) would you like your handheld to "remember" (auto-fill) from one log to the next? _____

Which field would you like to start on for each log? (**Note:** If you tally multiple species together, it is generally best to start on the Species field; however, if you always tally one species at a time, it is faster to start on the Grade field.) _____

Additional information, as needed:

- Do you currently tag (or plan to tag) logs? _____
 - If yes, are all logs tagged, or only veneer/veneer potentials? _____

- With each new log, which field(s) do you want remembered from the previous log which field do you want to start on (tag number can Auto Sequence as needed)
 - _____

- If you would like eLIMBS to pre-load Price Lists, please attach pricing by Species/Grade (optional)

Additional Comments: _____

I understand that eLIMBS' demo handheld and hardware should be returned in its original condition, immediately following completion of the demo period. I also understand that delayed return of or physical damage to eLIMBS' handheld or hardware may result in a partial forfeiture of the Demo Security Deposit.
